

## WHAT IS CLAIMED IS:

1. A cord and tubing cover, comprising:

a flexible sheet having a top surface and a bottom surface, with the bottom surface including:

5 a pliable interior region for covering one or more cords resting on a support surface, and

first and second exterior regions bounding the interior region, wherein at least one of the first and second exterior regions includes an adhesive material for securing the flexible sheet to the support surface.

10 2. The cord and tubing cover of claim 1 wherein the adhesive material comprises a two-sided adhesive tape.

3. The cord and tubing cover of claim 2 wherein each of the first and second exterior regions includes a strip of the two-sided adhesive tape.

15 4. The cord and tubing cover of claim 2 further comprising removable release paper on the adhesive tape.

5. The cord and tubing cover of claim 1 wherein the flexible sheet comprises a non-skid material.

6. The cord and tubing cover of claim 5 wherein the non-skid material comprises PVC foam.

20 7. The cord and tubing cover of claim 1 wherein the flexible sheet comprises a luminous material that glows in the dark.

8. The cord and tubing cover of claim 1 wherein the adhesive material is sprayed onto the flexible sheet.

9. A roll of cord and tubing cover material, comprising:

a roll of flexible non-skid material having a top surface and a bottom surface,  
5 with the bottom surface including a pliable interior region for covering one or more  
cords resting on a support surface.

10. The roll of cord and tubing cover material of claim 9 wherein the bottom  
surface further includes first and second exterior regions bounding the interior region,  
with at least one of the first and second exterior regions including an adhesive material  
10 for securing the flexible non-skid material to the support surface.

11. The roll of cord and tubing cover material of claim 9 wherein the non-  
skid material comprises PVC foam.

12. The roll of cord and tubing cover material of claim 9 wherein the non-  
skid material comprises a luminous material that glows in the dark.

15 13. The roll of cord and tubing cover material of claim 9 wherein the roll  
includes 100 to 150 feet of flexible non-skid material.

14. A cord and tubing cover, comprising:

a flexible sheet of non-skid material having a top surface and a bottom surface,  
with the bottom surface including a pliable interior region for covering one or more  
20 cords and tubing resting on a support surface.

15. The cord and tubing cover of claim 14 wherein the non-skid material comprises PVC foam.

16. The cord and tubing cover of claim 14 wherein the flexible sheet comprises a luminous material that glows in the dark

5 17. The cord and tubing cover of claim 14 further comprising first and second exterior regions bounding the interior region, wherein at least one of the first and second exterior regions includes an adhesive material for securing the flexible sheet to the support surface.

10 18. The cord and tubing cover of claim 17 wherein the adhesive material comprises a two-sided adhesive tape.

19. The cord and tubing cover of claim 17 wherein the adhesive material is sprayed onto the flexible sheet.
